POSITIVE PROFIT ALERT

This announcement is made by Boyaa Interactive International Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company (the “**Shareholders**”) and potential investors that, based on a preliminary assessment by the management of the Company on the unaudited consolidated management accounts of the Group and the information currently available to the Board, the revenue of the Group for the year ended 31 December 2021 is expected to increase by approximately 1% to 5% as compared to the revenue for the year ended 31 December 2020 (year ended 31 December 2020: approximately RMB351.5 million), which is primarily due to (i) the Group’s holding of certain online operation activities; and (ii) the continuous optimisation of its gaming products and gameplay and the Group’s revenue has maintained a steady increase.

The Group is expected to record a profit attributable to owners of the Company for the year ended 31 December 2021 of approximately RMB6.5 million to RMB9.0 million as compared to the position of a loss attributable to owners of the Company in the amount of approximately RMB45.1 million for the year ended 31 December 2020. The position of a profit attributable to owners of the Company for the year ended 31 December 2021 as compared to a position of loss for the same period in 2020 is mainly due to (i) the increase in revenue for the year ended 31 December 2021 as compared to the same period in 2020; (ii) the decrease in administrative expenses for the year ended 31 December 2021 as compared to the same period in 2020; and (iii) the reduction in the decrease in fair value of financial assets such as equity investment partnerships for the year ended 31 December 2021 as compared to the same period in 2020. Excluding the impact of non-operating one-off factors such as changes in the fair value of financial assets including equity investment partnerships, the profit attributable to owners of the Company for the year ended 31 December 2021 is expected to have increased by approximately 15% to 20% as compared to the profit attributable to owners of the Company that would have been recorded for the same period in 2020, when the impact of non-operating one-off factors such as changes in the fair value of financial assets including equity investment partnerships is excluded, mainly due to the year-on-year increase in revenue and the year-on-year decrease in administrative expenses.

The information contained in this announcement is based only on the preliminary assessment by the management of the Company with reference to the information currently available, including the unaudited consolidated management accounts of the Group for the year ended 31 December 2021, and is not based on any information or figures which have been audited, confirmed or reviewed by the Company's independent auditors and would require further discussion with the audit committee of the Company. As at the date of this announcement, the consolidated annual results of the Group for the year ended 31 December 2021 have not yet been finalised.

The annual results announcement of the Group for the year ended 31 December 2021 is expected to be published on or about 24 March 2022.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.

By order of the Board
