I *Dai Zhikang*
Chairman

Dear Shareholders,

On behalf of the Board of Directors of Boyaa Interactive International Limited (the "**Company**"), I am pleased to present the annual report of the Company and its subsidiaries (the "**Group**") for the year ended 31 December 2021.

In 2021, our revenue maintained a stable growth. Our revenue in 2021 recorded approximately RMB366.2 million, with a year-on-year increase of approximately 4.2% compared to the same period in 2020. The increase in revenue was mainly due to the Group's holding of certain online operation activities and continuous optimisation of game products and gameplay.

We recorded an unaudited non-IFRS adjusted net profit of approximately RMB8.4 million in 2021 while our unaudited non-IFRS adjusted loss in 2020 was approximately RMB45.1 million. Our unaudited non-IFRS adjusted net profit in 2021 as compared to the unaudited non-IFRS adjusted loss for the same period in 2020 was mainly due to the year-on-year increase in revenue and the reduction in decrease in the fair value of financial assets including equity investment partnerships than that for the same period in 2020. Excluding the impact of non-operating one-off factors such as the change in the fair value of financial assets including equity investment partnerships, the unaudited non-IFRS adjusted net profit in 2021 represented a year-on-year increase of approximately 18.5% compared to the same period in 2020, mainly due to the year-on-year increase in revenue and the year-on-year decrease in administrative expenses.

Chairman's Statement

During the second and third quarters of 2021, we successfully held the online integrated server sessions of BPT branded competition series – BPT 2021 match in Europe and BPT 2021 match in Asia. We remain true to our original aspiration. Over the years, we have been upholding the concept of “growing in love” in our charity activities by shouldering a strong sense of responsibility to give back to the society and continuing to convey the great love to the society. In the first quarter and second quarter of 2021, we held a charity activity to donate stationery items to Lian'an Primary School, Wuhua County, Meizhou city and donate teaching materials to the Yan'an Zaoyuan Primary School. We will continue to pay attention to the education and development of the left-behind children. We hope to create good conditions for their healthy growth, do our utmost to bring warmth to more people in need of help, and practice our corporate social responsibility.

In terms of gaming products, we provided a total of 69 online gaming product portfolio with a total of 11 languages as at 31 December 2021. In 2021, we continued to intensify in-depth market research and focus on research and development (the “**R&D**”) of game products, innovation of gameplay, enrichment of game products and optimisation of user experience, we made efforts to refine our products and diversify our operation in a steady manner to improve the quality of our gaming products while also constantly exploring and trying new domestic and overseas card and board games operation modes.

In 2022, we will continue to make steady progress. The Company will continue to strictly comply with various laws and regulations of the People's Republic of China (the “**PRC**”) and will stand firmly and fight steadily on the online card and board games by upholding the player-oriented philosophy, build high-quality intellectual and competitive card and board games and competition products, create a green and healthy environment for intellectual and competitive card and board games and forge ahead to build a century-old brand for Boyaa card and board games.

We are full of confidence and expectations for the future and the Board, the management and all staff of the Group share a common goal. With our steadfast belief and strong team-spirit, we will continue to step forward with our unremitting efforts, striving for the best interests for every stakeholder.

I would like to take this opportunity to express my sincere gratitude to the Board, the management and all staff of the Group for their dedication in the past year to the Group, and to the shareholders of the Company and business partners for their concerns for, and confidence in, the Group!

Management Discussion and Analysis

Non-International Financial Reporting Standards (“Non-IFRS”) adjusted net profit/(losses)

To supplement our consolidated financial statements which are presented in accordance with IFRS, we also use unaudited non-IFRS adjusted net profit/(losses) as an additional financial measure to evaluate our financial performance by eliminating the impact of items that we do not consider indicative of the performance of our business. The term “adjusted net profit/(losses)” is not defined under IFRS. Other companies in the industry which the Group operates in may calculate such non-IFRS items differently from the Group. The use of adjusted net profit/(losses) has material limitations as an analytical tool, as adjusted net profit/(losses) does not include all items that impact our profit/loss for the reporting period and should not be considered in isolation or as a substitute for the analysis of the Group’s results as reported under IFRS.

Our position of unaudited non-IFRS adjusted net profit for the year ended 31 December 2021 of approximately RMB8.4 million was derived from our unaudited profit for the same period excluding share-based compensation expenses of approximately RMB0.4 million included in administrative expenses, as compared to our position of unaudited non-IFRS adjusted net loss for the year ended 31 December 2020 of approximately RMB45.1 million.

Fourth Quarter of 2021 Compared to Fourth Quarter of 2020

Our revenue for the three months ended 31 December 2021 amounted to approximately RMB87.7 million, representing a year-on-year increase of approximately 12.9% from approximately RMB77.6 million recorded for the same period of 2020. For the three months ended 31 December 2021, revenue generated from our mobile games amounted to approximately RMB55.1 million as compared to approximately RMB45.9 million recorded for the same period in 2020, representing a year-on-year increase of approximately 20.1%.

Cost of revenue

Our cost of revenue for the three months ended 31 December 2021 amounted to approximately RMB30.2 million, representing a year-on-year increase of approximately 11.0% from approximately RMB27.2 million recorded for the same period in 2020. The year-on-year increase was primarily due to the increase in commission charges caused by the increase in revenue.

Gross profit and gross profit margin

As a result of the foregoing, our gross profit increased by approximately 14.0% from approximately RMB50.4 million for the three months ended 31 December 2020 to approximately RMB57.4 million for the three months ended 31 December 2021. Management Discussion and Analysis

Selling and marketing expenses

Our selling and marketing expenses increased from approximately RMB6.6 million recorded for the three months ended 31 December 2020 to approximately RMB7.8 million for the same period in 2021, representing a year-on-year increase of approximately 18.6%, which was mainly attributable to the increase in expenses for advertising and promotional activities.

Administrative expenses

Our administrative expenses for the three months ended 31 December 2021 amounted to approximately RMB32.6 million, representing a year-on-year decrease of approximately 5.0% from approximately RMB34.3 million recorded for the same period in 2020. For the year ended 31 December 2021, we recorded fair value losses on investments at fair value through profit or loss of approximately RMB102.7 million (fair value losses for the year ended 31 December 2020: approximately RMB140.7 million).

Management Discussion and Analysis

The investments in wealth management products under investments at fair value through profit or loss were made in line with our treasury and investment policies, after taking into account, among others, the level of risk, return on investment, liquidity and the term to maturity. Generally, the Company has in the past selected wealth management products that are principal guaranteed and relatively low risk products. Prior to making an investment, the Company had also ensured that there remains sufficient working capital for the Company's business needs even after the investments in wealth management products. During the year ended 31 December 2021, the Company entered into three ad-hoc subscription redemption deposits (不定期申贖存款) with one licensed bank in the PRC in an aggregate sum of RMB48.0 million. Such deposit constituted discloseable transactions under Chapter 14 of the Rules (the "**Listing Rules**") Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**"). The deposit was fully redeemed as at 31 December 2021. For further details, please refer to the Company's announcement dated 23 April 2021. Save as disclosed above, each of the investments made by the Company does not constitute a notifiable transaction or a connected transaction of the Company under the Listing Rules. As agreed with the financial institutions, the underlying investment portfolio of the wealth management products of the Company were primarily represented by inter-bank loan market instruments and exchange traded fixed-income financial instruments, such as inter-bank loans, government bonds, central bank bills and similar products, which were highly liquid with a relatively short term of maturity, and which were considered to be akin to placing deposits with banks whilst enabling the Group to earn an attractive rate of return.

On 28 December 2016, the Group, through Shenzhen Dong Fang Bo Ya Technology Co., Limited (深圳市東方博雅科技有限公司), established a limited partnership namely Jiaxing Boyaa ChunLei Equity Investments Limited Partnership Enterprise (嘉興博雅春雷股權投資合夥企業(有限合夥)) ("**Jiaxing Boyaa**") with Shanghai Tailai Tianji Asset Management Co., Limited (上海泰來天濟資產管理有限公司). During the year ended 31 December 2021, the Group's accumulated contribution of RMB300.0 million represented 99.0% of the total capital contribution of Jiaxing Boyaa. The fair value of the investment in Jiaxing Boyaa as at 31 December 2021 was approximately RMB17.4 million. Jiaxing Boyaa was established for carrying out equity investments, venture capital investments and investments in securities, subject to certain investment restrictions. We will continue to closely monitor the performance of Jiaxing Boyaa on an on-going basis.

On 25 October 2018, the Group, through Boyaa On-line Game Development (Shenzhen) Co., Ltd* (博雅網絡遊戲開發(深圳)有限公司), had subscribed for one RMB wealth management product issued by Industrial and Commercial Bank of China at the amount of RMB200.0 million (the "**Wealth Management Product**"). As at 31 December 2021, the fair value of the Wealth Management Product was approximately RMB222.3 million. The Wealth Management Product was assessed by the Company as very low-risk product. The Board considered that the Wealth Management Product would provide a good short-term investment opportunity for the Group and enhance the funds utilisation efficiency and bring extra investment returns. As at 31 December 2021, the bank accounts which holds the Wealth Management Product had been frozen. For details as to the circumstances leading to the freezing of the accounts, please refer to Note 37 under the section headed "Notes to the Consolidated Financial Statements" of this report and the announcements of the Company dated 1 September 2019, 13 December 2019, 3 January 2020, 6 January 2020, 9 November 2020, 3 September 2021, 30 November 2021 and 24 March 2022, respectively.

Management Discussion and Analysis

We consider that, save for our subscription of the above Wealth Management Product, no other single investment that was designated as investments at fair value through profit or loss in our investment portfolio is a significant investment as none of such investments has a carrying amount that accounts for more than 5.0% of our total assets as at 31 December 2021.

Borrowings

During the year ended 31 December 2021, we did not have any short-term or long-term bank borrowings and we had no outstanding, utilised or unutilised banking facilities.

Capital expenditures

Commitment

As at 31 December 2021, the Group did not have any significant commitments.

Contingent liabilities and guarantees

As at 31 December 2021, the Group did not have any significant unrecorded contingent liabilities, guarantees or any litigation against us.

Significant investments and future plans for major investments

For the year ended 31 December 2021, the Group's investment in Jiaying Boyaa amounted to RMB300.0 million. Jiaying Boyaa mainly carries out equity investments and venture capital investments. In addition, the Group had subscribed for the Wealth Management Product, which had an aggregate fair value of approximately RMB222.3 million as at 31 December 2021.

In the future, the Group will continue to identify new opportunities for business development. The Group has not executed any agreement in respect of material acquisitions, investments or capital asset and does not have any other future plans relating to material acquisitions, investments or capital asset as at the date of this report. Nonetheless, if any potential investment opportunity arises in the future, the Group will perform feasibility studies and prepare implementation plans to consider whether it is beneficial to the Group and the shareholders of the Company as a whole.

As at 31 December 2021 and 2020, no forfeited contributions were available for utilization by the Group to reduce the existing level of contributions as described in paragraph 26 (2) of Appendix 16 to the Listing Rules.

For the year ended 31 December 2021, the total staff costs of the Group (including salaries, bonuses, social insurances, provident funds and share incentive schemes) amounted to approximately RMB80.4 million, representing approximately 32.6% of the total expenses of the Group. Directors' Report

- * *Year-on-Year Change % represents a comparison between the current reporting period and the corresponding period last year.*
- ** *The numbers of DAUs and MAUs shown above are calculated based on the number of active users in the last calendar month of the relevant reporting period.*
- *** *The categories of "Fight the landlord" and "Other Games" set out in the previous annual report is combined and referred to as "Other Card and Board" above.*

The size of the Group's player base reflects the popularity of the Group's games and the basis for a sustainable growth. The Group measures its player base primarily by DAUs and MAUs. The number of paying players and ARPPU in a specific period are the two most direct factors that affect revenue generated from our online games in such period. Discussion on the trend of the above KPIs is set out in the section headed "Management Discussion and Analysis – Business Overview and Outlook" of this annual report.

The review and discussions included in the section headed "Management Discussion and Analysis" form part of this Directors' Report.

Principal Risks and Uncertainties

The Group faces the following principal risks and uncertainties in its operations:

- (a) the major products of the Group, *Texas Hold'em Series*, accounted for over 65% of the revenue in the past, and any failure to maintain or enhance the performance of these games or other adverse development affecting these games could adversely affect the business and results of operations of the Group;
- (b) the Group may not be able to continuously enhance its existing games and player experience and launch high-quality new games and services, which will materially and adversely affect its ability to continue to retain existing players and attract new players;
- (c) the Group utilises major social networking websites, online application stores and third-party payment vendors to generate a substantial portion of revenues and if the Group is unable to maintain a good relationship with these distribution and payment channels or if the use of these distribution or payment channels is adversely affected by any factor such as new measures imposed or intervention by any regulators or third parties, the business and results of operations of the Group will be adversely affected;
- (d) the Group relies on the Contractual Arrangements to control and obtain the economic benefits from Boyaa Shenzhen which may not be as effective in providing operational control as direct ownership;
- (e) if the PRC government finds the Contractual Arrangements established for operating the online game businesses in China do not comply with applicable PRC laws and regulations, or if these regulations or their interpretations change in the future, the Group could be subject to severe consequences, including the nullification of the Contractual Arrangements and the relinquishment of our interest in the variable interest entity, being Boyaa Shenzhen;

Directors' Report

- (f) there are uncertainties about the interpretation of PRC laws and regulations relating to contractual arrangements. On 15 March 2019, the Foreign Investment Law of the People's Republic of China ("**Foreign Investment Law 2019**") was adopted by the Second Session of the Thirteenth National People's Congress of the People's Republic of China and had taken effect on 1 January 2020. Foreign Investment Law 2019 replaced the Law of the People's Republic of China on Sino-foreign Equity Joint Ventures, the Law of the People's Republic of China on Sino-Foreign Cooperative Joint Ventures and the Law of the People's Republic of China on Foreign-funded Enterprises (collectively referred to as the "**Former Foreign Investment Law**"). On 26 December 2019, the State Council promulgated the Regulations on the Implementation of Foreign Investment Law of the People's Republic of China ("**the Regulations on the Implementation of Foreign Investment Law**"), which became effective on 1 January 2020 and replaced the Regulations on the Implementation of the Law of the People's Republic of China on Sino-foreign Equity Joint Ventures, the Interim Regulations on the Term of Sino-foreign Equity Joint Ventures, Detailed Rules for the Implementation of the Law of the People's Republic of China on Foreign-funded Enterprises and Detailed Rules for the Implementation of the Law of the People's Republic of China on Sino-Foreign Cooperative Joint Ventures. According to Foreign Investment Law 2019 and the Regulations on the Implementation of the Foreign Investment Law, the existing foreign-funded enterprises established under the Former Foreign Investment Law before the effective date of the Foreign Investment Law 2019 may adjust their existing organizational form or structure, and go through relevant procedures for change of registration in accordance with relevant laws such as the Company Law of the People's Republic of China and the Partnership Enterprise Law of the People's Republic of China, or maintain the original organizational form or structure within five years from the effective date of the Foreign Investment Law 2019.

The Foreign Investment Law 2019 stipulates four forms of foreign investment. However, the Foreign Investment Law 2019 does not specify the form of the contractual arrangements for foreign investment. Since the means of foreign investment stipulated in the Foreign Investment Law 2019 include "investment in accordance with laws, administrative regulations or other means stipulated by the State Council", it cannot be ruled out that the future laws, administrative regulations and the provisions of the State Council may stipulate contractual arrangements as one of the means of foreign investment. Whether the contractual arrangement will be identified as foreign investment in the future or whether it will be regarded as a violation of the requirements for foreign investment access, there is still some uncertainty. And the Company may bear significant compliance costs in the future;

Directors' Report

- (g) Complying with evolving laws and regulations regarding cybersecurity, information security, privacy and data protection and other related laws and requirements may force the Group to make adverse changes to its business. Different regulatory bodies in PRC have issued laws and regulations regarding cybersecurity, information security, privacy and data protection with various standards and applications, including but not limited to: (i) the Regulations on Administration of Cyber Data Security (Consultation Draft) (not yet effective), which stipulates that data operators which carry out data processing activities that affect or may affect national security shall apply for cyber security review according to the relevant regulations of the State; (ii) the Cybersecurity Review Measures (effective from 15 February 2022), which stipulates that network platform operators which carry out data processing activities that affect or may affect national security shall be subject to the cybersecurity review by the Cybersecurity Review Office (網絡安全審查辦公室), where there are still uncertainties regarding the interpretation and application of such review measures; (iii) the Administrative Provisions on Algorithm Recommendation of Internet Information Services (effective from 1 March 2022); and (iv) the Administrative Provisions on Mobile Internet Application Information Services (Revised Consultation Draft) (not yet effective);
- (h) If future laws and regulations require that existing domestic enterprises that have been listed overseas, directly or indirectly, shall file with the China Securities Regulatory Commission (the “CSRC”), the Group may be required to obtain approval from and/or meet other requirements of the CSRC or other PRC government authorities, and it is uncertain whether this will result in significant compliance costs for the Group in the future; and
- (i) facing challenges presented by the extensive law and regulation of various aspects of online game business in the PRC and overseas markets and there is no assurance that such relevant laws and regulations would not apply to the Group or be interpreted in ways that could affect the Group’s business.

The Group mainly adopted the following measures to manage its aforementioned major risk areas:

- manage the Group’s growing size and expanding business, including controlling costs, establishing sufficient internal controls, attracting and retaining talent as well as maintaining corporate culture;
- continue to offer new and high-quality games, upgrade existing games to attract and retain players as well as increase player activity level and monetisation;
- maintain and expand the Group’s game distribution platforms to deepen penetration in existing markets and expand into new markets within and outside of the PRC;
- maintain close contact with the relevant PRC regulatory authorities and engaging external PRC legal advisers to assist in reviewing the implementation and compliance of the Contractual Arrangements, and ensure sound and effective operation of the Group in compliance with the Contractual Arrangements and applicable laws and regulations; and to deal with specific problems or issues arising from the Contractual Arrangements if required; and
- adopt internal procedures to ensure regulatory compliance of the Group’s business operations in both China and overseas markets. The Group’s in-house legal department keep abreast of the regulatory environment and developments in local laws and regulations to support the Group’s business expansion in its existing and future target markets, and closely monitor the implementation of the above laws and regulations and strictly comply with such laws and regulations in accordance with the advice of its PRC legal advisers, as well as establish and maintain internal compliance policies.

In particular, for further details of the risks associated with our Contractual Arrangements, please refer to the section headed "Risks associated with the Contractual Arrangements and the actions taken by the Company to mitigate the risks" below.

Environmental Protection Initiatives

The Group is principally engaged in the development and operations of online card and board games. Due to the nature of the Group's business, the Group does not have any significant environmental issues (such as issues surrounding emission of pollutants, discharges into water and land, and generation of hazardous and non-hazardous waste, which are more often seen in certain particular industries, such as construction, restaurants and manufacturing etc.) in its operations. In addition, as advised by the Group's PRC legal advisers, there are no relevant environmental laws and regulations that are applicable to the Group's businesses and operations which would have a significant impact on the Group. The management of the Company considers that the Group's businesses and operations would not cause a significant negative impact on the environment and natural resources. Accordingly, the Group has not formulated any environmental policy in writing since its incorporation.

Nevertheless, the Group always implements environmentally-friendly practices to operate and manage its businesses. For instance, the Group has implemented water-saving, electricity-saving, stationery-saving, paper-saving and energy-saving initiatives, etc. within the Group by enforcing good practices in the use of water, electricity, stationery and paper and in the maintenance of lighting and electric equipment to ensure that they are kept in good and proper condition to maximise efficiency. Furthermore, the Company also actively addresses and encourages employees to participate in social environmental protection activities. For further details regarding environmental protection activities of the Group, please refer to the section headed "Environmental, Social and Governance Report – Environmental Activities" of this annual report.

SHARE OPTION SCHEMES AND RESTRICTED SHARE UNIT SCHEME

Post-IPO Share Option Scheme

On 23 October 2013, the Post-IPO Share Option Scheme of the Company was approved and adopted by the Shareholders.

The Post-IPO Share Option Scheme shall be valid and effective for a period of ten years commencing on 12 November 2013, being the date on which the trading of the Shares on the Stock Exchange commenced (the “Listing Date”). Accordingly, as at 31 December 2021, the remaining life of the Post-IPO Share Option Scheme is approximately one year and ten months. After such period no further options will be granted but the provisions of the Post-IPO Share Option Scheme shall remain in full force and effect to the extent necessary to give effect to the exercise of any options granted prior thereto which are at that time or become thereafter capable of exercise under the Post-IPO Share Option Scheme, or otherwise to the extent as may be required in accordance with the provisions of the Post-IPO Share Option Scheme.

The purpose of the Post-IPO Share Option Scheme is to incentivise and reward the employees (whether full time or part-time) or directors of members of the Group or associated companies of the Company (the “Eligible Person(s)”) for their contribution to the Group and to align their interests with that of the Company so as to encourage them to work towards enhancing the value of the Company. Pursuant to the Post-IPO Share Option Scheme, the Board (including any committee or delegate of the Board appointed by the Board to perform any of its functions pursuant to the rules of the Post-IPO Share Option Scheme) may, at its absolute discretion, offer to grant an option to subscribe for such number of Shares as the Board may determine to an Eligible Person.

Directors' Report

The maximum number of Shares which may be issued upon the exercise of all options to be granted under the Post-IPO Share Option Scheme and any other share option schemes (including but not limited to the Pre-IPO Share Option Scheme, as defined below, the “**Other Schemes**”) of the Company must not in aggregate exceed 10% of the total number of Shares in issue as at the Listing Date (the “**Scheme Mandate Limit**”) (being 73,755,912 Shares). Therefore, as at 31 December 2021, the total number of Shares which may be issued on the exercise of options granted and to be granted under the Post-IPO Share Option Scheme and any Other Schemes is 42,589,744, representing approximately 6.00% of the issued share capital of the Company as at the date of this annual report. Options lapsed in accordance with the terms of the Post-IPO Share Option Scheme and any Other Schemes of the Company will not be counted for the purpose of calculating the Scheme Mandate Limit.

At any time, the maximum number of Shares which may be issued upon exercise of all outstanding options granted and not yet exercised under the Post-IPO Share Option Scheme and any Other Schemes of the Company to Eligible Persons must not exceed 30% of the total number of Shares in issue from time to time. Unless approved by the Shareholders in a general meeting, the total number of Shares issued and to be issued upon the exercise of the options granted to each Eligible Person (including exercised, cancelled and outstanding options) in any 12-month period shall not exceed 1% of the Shares in issue.

An offer of options shall be open for acceptance for such period (not exceeding 30 days inclusive of, and from, the date of offer) as the Board may determine and notify to the Eligible Person concerned provided that no such offer shall be open for acceptance after the expiry of the duration of the Post-IPO Share Option Scheme. An offer of options not accepted within this period shall lapse. An amount of HK\$1.00 is payable upon acceptance of the grant of an option and such payment shall not be refundable and shall not be deemed to be a part payment of the exercise price.

Any option shall be vested on an option-holder immediately upon his acceptance of the offer of options provided that if any terms and conditions are specified in the offer of the option, such option shall only be vested on an option-holder according to such terms and conditions. Such terms and conditions may include any vesting schedule and/or conditions, any minimum period for which any option must be held before it can be exercised and/or any performance target which need to be achieved by an option-holder before the option can be exercised. Any vested option which has not lapsed and which conditions have been satisfied or waived by the Board in its sole discretion may, unless the Board determines otherwise in its absolute discretion, be exercised at any time from the next business day after the offer of options has been accepted. Any option which remain unexercised shall lapse upon the expiry of the option period, which period shall be determined by the Board and shall not exceed ten years from the offer date of the option.

The exercise price shall be such price as determined by the Board and notified to an option-holder and which shall not be less than the highest of:

- (i) the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets on the date of offer of the option;
- (ii) the average of the closing price of the Shares as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the date of offer of the option; and
- (iii) the nominal value of the Shares.

Directors' Report

Details of the options granted under the Post-IPO Share Option Scheme and details of the vesting period, exercise period, the exercise price and the movements in options during the year ended 31 December 2021 are set out in the section headed "Details of the options granted and outstanding under the Post-IPO Share Option Scheme and the Pre-IPO Share Option Scheme and the RSUs granted and outstanding under the RSU Schemes as at 31 December 2021" below. Details of movements in the options and the value of the options granted under the Post-IPO Share Option Scheme are set out in Note 34 to the consolidated financial statements.

During the year ended 31 December 2021, 360,000 options granted under the Post-IPO Share Option Scheme have been lapsed, no option has been granted or agreed to be granted, nor has any option been cancelled.

Pre-IPO Share Option Scheme

On 7 January 2011, the Pre-IPO Share Option Scheme of the Company was approved and adopted by the Board, which was subsequently amended on 17 September 2013.

The purpose of the Pre-IPO Share Option Scheme is to enable the Company to grant pre-IPO options to employees, officers and directors of or consultant to any member of the Group (the "**Eligible Participant(s)**") as recognition and acknowledgement of the contributions that such Eligible Participants have made or may make to the Group or any affiliates. An Eligible Participant whom an option is granted in accordance with the terms of the Pre-IPO Share Option Scheme (the "**Grantee**") is not required to pay for the grant of any option under the Pre-IPO Share Option Scheme.

The maximum number of Shares in respect of which options may be granted at any time under the Pre-IPO Share option Scheme will be such number of shares as the Remuneration Committee may approve from time to time. No Grantee shall be entitled to any rights, interest or benefits attached to the underlying Shares of the options granted under the Pre-IPO Share Option Scheme unless and until the option in respect of such Shares has been vested on them and exercised in accordance with the terms of the Pre-IPO Share Option Scheme. There is no maximum entitlement for each Eligible Participant under the rules of the Pre-IPO Share Option Scheme although no Eligible Participant under the Pre-IPO Share Option Scheme has been granted options exceeding 1.0% of the issued share capital of the Company.

An offer of options shall be open for acceptance for such period (not exceeding 30 days inclusive of, and from, the date of offer) as the Board may determine and notify to the Eligible Person concerned provided that no such offer shall be open for acceptance after the expiry of the duration of the Pre-IPO Share Option Scheme.

An option shall not be exercisable on any date unless such terms and conditions (including, without limitation, any performance target(s) or condition(s) upon which the exercise of the option shall be conditional), if any, are satisfied and to the extent that the option has vested.

The exercise price in respect of any option granted under the Pre-IPO Share Option Scheme shall be fixed with reference to the fair market value of the underlying Share on the date upon which the option is granted, and subject to any adjustments, shall be:

- (i) the latest valuation price per Share certified by an independent valuer engaged by the Company for such purpose prior to the date of grant of the relevant option; or
- (ii) the latest price per Share at which the Company has issued any Shares prior to the date of grant of the relevant option, unless the Company otherwise determines and so notifies the Grantee in writing.

Directors' Report

Notwithstanding any other provision of the rules of the Pre-IPO Share Option Scheme or any notice of grant or the terms on which any option is granted or vested, any Shares allotted upon the exercise of the option in accordance with the Pre-IPO Share Option Scheme will, in all cases, be held by a nominee as designated by the Company (the “**Nominee**”) for the Grantees. The Company has appointed The Core Trust Company Limited as the trustee (the “**Trustee**”) to assist with the administration and vesting of the options granted pursuant to the Pre-IPO Share Option Scheme and The Core Admin Boyaa Option Limited, a company wholly-owned by the Trustee, as the Nominee to hold the Shares to be allotted to the Grantees upon the exercise of the option in accordance with the Pre-IPO Share Option Scheme.

An option, whether vested or unvested, shall automatically lapse and expire with no rights and benefits on the day falling on the eighth anniversary of the date of vesting of the relevant option or such earlier date as the Board may have determined prior to the grant of the relevant option.

All of the options granted under the Pre-IPO Share Option Scheme were granted in four batches in 2011 and 2012. As at 31 December 2021, no options to subscribe for Shares remained outstanding under the Pre-IPO Share Option Scheme. Details of movements in the options under the Pre-IPO Share Option Scheme are set out in Note 34 to the consolidated financial statements.

Details of the options granted under the Pre-IPO Share Option Scheme and details of the vesting period, exercise period, the exercise price and the movements in options during the year ended 31 December 2021 are set out in the section headed “Details of the options granted and outstanding under the Post-IPO Share Option Scheme and the Pre-IPO Share Option Scheme and the RSUs granted and outstanding under the RSU Schemes as at 31 December 2021” below.

No further options have been granted under the Pre-IPO Share Option Scheme after the Listing Date. However, all options granted under the Pre-IPO Share Option Scheme are exercisable over an eight-year period from the date of vesting. Therefore, given that the last batch of options under the Pre-IPO Share Option Scheme were granted on 1 November 2012 and the options so granted shall vest over a period of four years after the date of grant, as at 31 December 2021, the remaining life of the Pre-IPO Share Option Scheme in respect of outstanding options is approximately two years and ten months.

During the year ended 31 December 2021, none of options granted under the Pre-IPO Share Option Scheme have been lapsed and no options have been cancelled.

Restricted Share Unit Schemes

The 2013 RSU scheme of the Company adopted on 17 September 2013 with a term of eight years from the date of adoption and was terminated on 3 March 2021. Nonetheless, the rights and obligations of the grantees and the Company with respect to the RSUs that have been granted or earmarked pursuant to the 2013 RSU Scheme on or before the termination date as provided (or will be provided) in the relevant grant letters shall survive termination of the 2013 RSU Scheme and remain in full force and effect except otherwise provided for in such grant letters. The Company adopted a new 2021 RSU Scheme on 19 July 2021 in place and under substantially the same terms as the 2013 RSU Scheme.

The purpose of the RSU Schemes is to incentivise directors, senior management and employees for their contribution to the Group, to attract, motivate and retain skilled and experienced personnel to strive for the future development and expansion of the Group by providing them with the opportunity to own equity interests in the Company.

Directors' Report

Persons eligible to receive RSUs under the RSU Scheme are existing employees, directors (whether executive or non-executive, but excluding independent non-executive directors) or officers of the Company or any of its subsidiaries (the “**RSU Eligible Person(s)**”). The Board selects the RSU Eligible Persons to receive RSUs under the RSU Scheme at its discretion. There is no maximum entitlement for each RSU Eligible Person under the rules of the RSU Scheme although no RSU Eligible Person has been granted RSUs exceeding 1.5% of the issued share capital of the Company.

The 2021 RSU Scheme will be valid and effective for a period of eight years, commencing from the date of the first grant of the RSUs, being 27 August 2021 (unless it is terminated earlier in accordance with its terms) (the “**RSU Scheme Period**”). As at 31 December 2021, the remaining life of the 2021 RSU Scheme is approximately seven years and eight months.

The maximum number of RSUs that may be granted under the RSU Schemes in aggregate (excluding RSUs that have lapsed or been cancelled in accordance with the rules of the RSU Scheme) shall be such number of Shares held or to be held by the RSU Trustee (as defined below) for the purpose of the RSU Scheme from time to time.

The Board may not grant any RSUs to any RSU Eligible Person(s) in any of the following circumstances:

- (i) the securities laws or regulations require that a prospectus or other offering documents be issued in respect of the grant of the RSUs or in respect of the RSU Schemes, unless the Board determines otherwise;
- (ii) where granting the RSUs would result in a breach by the Company, its subsidiaries or any of their directors of any applicable securities laws, rules or regulations; or
- (iii) where such grant of RSUs would result in breach of the limit set out in the rules of the RSU Schemes. Under such rules, the maximum number of RSUs that may be granted under the RSU Schemes in aggregate (excluding RSUs that have lapsed or been cancelled in accordance with the rules) shall be such number of shares held by the trustee for the purpose of the RSU Schemes from time to time.

The Board can determine the vesting criteria, conditions and the time schedule when the RSUs will vest and such criteria, conditions and time schedule shall be stated in the letter granting such RSUs. Within a reasonable time after the vesting criteria, conditions and time schedule have been reached, fulfilled, satisfied or waived, the Board will send a vesting notice (the “**Vesting Notice**”) to each of the relevant participant in the RSU Schemes (the “**RSU Participant(s)**”). The Vesting Notice will confirm the extent to which the vesting criteria, conditions and time schedule have been reached, fulfilled, satisfied or waived, and the number of Shares (and, if applicable, the cash or non-cash income, dividends or distributions and/or the sale proceeds of non-cash and non-scrip distributions in respect of those Shares) involved. The RSUs that have been granted are subject to vesting as described in the section headed “Details of the options granted and outstanding under the Post-IPO Share Option Scheme and the Pre-IPO Share Option Scheme and the RSUs granted and outstanding under the RSU Schemes as at 31 December 2021 – (c) Consideration paid for the grant of RSUs and the vesting period of the RSUs granted under the RSU Schemes” below and once the RSUs vest and the corresponding shares transferred to the RSU Participants, the RSU Participants are not restricted from dealing in the shares under the rules of the RSU Schemes.

Directors' Report

The Company has appointed The Core Trust Company Limited as the trustee (the "**RSU Trustee**") to assist with the administration and vesting of RSUs granted pursuant to the RSU Schemes. The Company may (i) allot and issue Shares to the RSU Trustee to be held by the RSU Trustee and which will be used to satisfy the RSUs upon exercise and/or (ii) direct and procure the RSU Trustee to receive existing Shares from any Shareholder or purchase existing Shares (either on-market or off-market) to satisfy the RSUs upon exercise. The shares underlying the 2013 RSU Scheme and 2021 RSU Schemes are both held by a nominee company, i.e., The Core Admin Boyaa RSU Limited and Core Administration RSU Limited respectively (collectively, the "**RSU Nominee**"). Dividends that are attributable to the underlying shares of the RSU Schemes will be paid to the RSU Nominee as the registered shareholder of such shares. The dividends attributable to the underlying shares of RSUs already granted will be held by the RSU Nominee for the benefit of the RSU Participants which will be distributed to them in accordance with the corresponding number of underlying shares that each RSU Participant is entitled based on RSUs already granted to such RSU Participant at the time of distribution of the dividends. The remaining dividends represent dividends attributable to shares in the reserve pool of underlying shares where RSUs have not yet been granted (the "**RSU Pool**"). The dividends in respect of shares in the RSU Pool will first be used to settle any outstanding fees and expenses of the RSU Schemes payable by the Company to the trustee of the RSU Schemes and the settlement of the remaining portion of such dividends will be decided by the Board.

The Company has put in place the following mechanism for the exercise of the voting rights attached to the shares held by the RSU Nominee at the Company's general meetings:

- (i) In respect of each general meeting of the Company, the Company will send a voting instruction form to each of the RSU Participants to solicit votes from such RSU Participants. The voting instruction form will be very similar to the proxy form for the relevant general meeting and will set out a general description of the resolutions proposed at the general meeting and will allow the RSU Participants to select whether to vote for or against each of the resolutions. A copy of the relevant corporate communication concerning matters to be proposed at such general meeting (such as shareholders' circular and annual report) will also be made available to each of the RSU Participants so that the RSU Participants will have all relevant information for considering the relevant resolutions as if they were shareholders of the Company. Each RSU Participant shall be entitled to one vote for each of the shares underlying the RSUs granted to him or her, whether vested or unvested. The RSU Participants will be required to return the signed and completed voting instruction form with the administrator of the RSU Schemes (the "**Administrator**") (currently being Ms. Tao Ying) by the deadline stated in the voting instruction form, which deadline shall be no less than 7 days before the time for holding the relevant general meeting and the RSU Participants will be given at least 7 days to consider how they would like to cast their votes. In so far as the duly signed and completed voting instructions from the RSU Participants have been received by the Administrator prior to the proposed deadline, the Administrator will calculate the total of votes for and against each proposed resolution and will instruct the RSU Nominee accordingly, and the RSU Nominee shall vote only in accordance with the instructions of the Administrator which reflect the instructions of the RSU Participants.

Directors' Report

- (ii) For those RSU Participants who fail to return a duly signed and completed voting instructions form to the Administrator prior to the proposed deadline as set out in the voting instruction form, the Administrator will not give any instruction to the RSU Nominee so that no votes will be cast for such shares underlying the RSUs granted and the RSU Nominee shall abstain from voting with respect to such shares underlying the RSUs granted.
- (iii) For the shares in the RSU Pool in respect of which no RSUs have been granted, the Administrator will not give any instruction to the RSU Nominee so that no votes will be cast for those shares and the RSU Nominee shall also abstain from voting with respect to such shares.

RSUs held by a RSU Participant that are vested as evidenced by the Vesting Notice may be exercised (in whole or in part) by the RSU Participant serving an exercise notice in writing on the RSU Trustee and copied to the Company. Upon receipt of an exercise notice, the Board may decide at its absolute discretion to:

- (a) direct and procure the RSU Trustee to, within a reasonable time, transfer the Shares underlying the RSUs exercised (and, if applicable, the cash or non-cash income, dividends or distributions and/or the sale proceeds of non-cash and non-scrip distributions in respect of those Shares) to the RSU Participant which the Company has allotted and issued to the RSU Trustee as fully paid up Shares or which the RSU Trustee has either acquired by purchasing existing Shares or by receiving existing Shares from any Shareholder, subject to the RSU Participant paying the exercise price (where applicable) and all tax, stamp duty, levies and charges applicable to such transfer to the RSU Trustee or as the RSU Trustee directs; or
- (b) pay, or direct and procure the RSU Trustee to, within a reasonable time, pay, to the RSU Participant in cash an amount which represents the value of the Shares underlying the RSUs exercised on or about the date of exercise (and, if applicable, the cash or non-cash income, dividends or distributions and/or the sale proceeds of non-cash and non-scrip distributions in respect of those Shares) less any exercise price (where applicable) and after deduction of any tax, levies, stamp duty and other charges applicable to the sale of any Shares to fund such payment and in relation thereto.

As at 31 December 2021, an aggregate of 56,556,829 Shares were held by the RSU Trustee, representing approximately 7.97% of the Shares in issue as at the date of this annual report. As at 31 December 2021, RSUs in respect of an aggregate of 9,722,089 Shares, representing approximately 1.37% of the Shares in issue as at the date of this annual report, had been granted to 254 RSU Participants pursuant to the RSU Schemes. Details of the movements in the RSUs under the RSU Scheme are set out in Note 34 to the consolidated financial statements.

Details of the RSUs granted under the RSU Scheme and details of the vesting period and the movements in RSUs during the year ended on 31 December 2021 are set out in the section headed "Details of the options granted and outstanding under the Post-IPO Share Option Scheme and the Pre-IPO Share Option Scheme and the RSUs granted and outstanding under the RSU Schemes as at 31 December 2021" below.

During the year ended 31 December 2021, no RSU has been granted or agreed to be granted under the RSU Scheme, nor has any RSU been cancelled under the 2013 RSU Scheme, whereas 5,650,000 RSUs have been granted or agreed to be granted (details of which, please refer to the announcement of the Company dated 27 August 2021) and no RSU has been cancelled under the 2021 RSU Scheme.

MAJOR CUSTOMERS AND SUPPLIERS

Currently, Google is the largest payment collection channel, contributed approximately 21.6% of the Group's total revenue, for the same period. Any restriction on access to these payment collection channels may lead to loss or slower the growth of our game player base, our business and financial condition. In the meantime, we are trying to seek additional payment methods and offer more payment options for players to ensure the normal development of our business. The average length of business relationship with the five largest payment collection channels is approximately eleven years. In addition, Mr. Dai Zhikang is an executive Director and therefore a connected person of the Company under Rule 14A.07(1) of the Listing Rules. Contractual Arrangements

Reasons for Contractual Arrangements

The Group is primarily engaged in the development and operation of online card and board games business and is considered to be engaged in the provision of value-added telecommunications services as a result of the operations of the websites of the Group. The Group conducts online games business through a PRC operating entity, Boyaa Shenzhen. According to the Administrative Rules for Foreign-funded Telecommunications Enterprises (which will take effect on 1 May 2022) issued by the State Council on 11 December 2001 and amended on 10 September 2008, 6 February 2016 and 29 March 2022, and the Special Administrative Measures on Foreign Investment Access (Negative List) (2021 Version) issued by the National Development and Reform Commission and the Ministry of Commerce on 27 December 2021, foreign investors are prohibited to hold more than 50% of the equity interest in an entity providing value-added telecommunications services (excluding e-commerce, domestic multi-party communications, storage and forwarding and call centres). Internet content provisions services are classified as value-added telecommunications businesses, and a commercial operator of such services must obtain an internet content provider (“**ICP**”) license from the appropriate telecommunications authorities in order to carry on any commercial internet content provision business in China. Boyaa Shenzhen has obtained the requisite ICP license for the operations of the Group. Therefore, in order for the Group to be able to carry on its online games business in China in compliance with the applicable PRC laws and regulations, the Group entered into the Contractual Arrangements with Boyaa Shenzhen through an indirect wholly-owned subsidiary, Boyaa PRC, pursuant to which the Group will be able to assert management control over the operations of, and enjoy all economic benefits of, Boyaa Shenzhen. In addition, the Group will be able to consolidate Boyaa Shenzhen’s financial results in the results of the Company under IFRS as if it was a wholly-owned subsidiary of the Company.

In addition, foreign investor wishing to acquire any equity interest in a value-added telecommunications business in the PRC must demonstrate (i) a good track record and (ii) experience in providing value-added telecommunications services overseas (the “**Qualification Requirement**”). As advised by the Company’s PRC legal advisers, as of 31 December 2021, there were no applicable PRC laws, regulations or rules that provide clear guidance or interpretation on the Qualification Requirement. Therefore, in order for the Company to be able to carry on its business in China, the Group has taken steps to build up its track record of overseas telecommunications business operations in an attempt to comply with the Qualification Requirement, so as to be qualified to acquire the entire equity interest of Boyaa Shenzhen when the restrictions on the foreign ownership in telecommunications services and on the percentage of foreign ownership in online culture products and business are lifted. In particular, the Company has offered casual games on the Company’s overseas website, www.boyaa.com.hk, with a view to building up its track record of overseas telecommunications business operations. Moreover, the Group has completed equity investments in Shenzhen Coalaa Network Technology Co., Ltd. (深圳市卡拉網絡科技有限公司), Shenzhen Fengxunsheng Technology Co., Ltd. (深圳市豐訊盛科技有限公司), Shenzhen Guanhai Technology Co., Ltd. (voluntarily dissolved in 2020) and Function Technology Co., Ltd. (voluntarily dissolved in 2020) (collectively referred to as “**Coalaa**”), through a series of agreements and at a total consideration of RMB5.0 million. Coalaa is an online card and board game developer and operator, with Texas Poker (Professional Version), which is offered as both a web-based game and a mobile game and in 10 language versions, including Arabian, Indonesian and Thai, as its important games. The Group envisages that through such acquisition, the Group can further complement its game portfolio and it will be able to further expand its market share in overseas market, and in particular, the Thai market.

Directors' Report

Boyaa Shenzhen is significant to the Group as it holds certain licenses and permits that are essential to the operation of the business of the Group, including ICP License and Internet Culture Business License. In addition, Boyaa Shenzhen also holds certain intellectual property rights, including software copyrights, trademarks, patents and domain names. The revenue and the total asset value of Boyaa Shenzhen subject to the Contractual Arrangements amounted to approximately RMB21.6 million for the year ended 31 December 2021 and approximately RMB654.5 million as at 31 December 2021, respectively.

Directors' Report

Risks associated with the Contractual Arrangements

Mitigation actions taken by the Company

- iv. The Group may lose the ability to use and enjoy assets held by the VIE that are important to the operation of its business if the VIE declares bankruptcy or becomes subject to a dissolution or liquidation proceeding.
- Pursuant to the Business Operating Agreement, in the event that Boyaa PRC or its designee decided to voluntary wind-up or dissolve Boyaa Shenzhen, each of Mr. Zhang Wei and Mr. Dai Zhikang undertakes that he will ensure and procure the execution of all related documents and completion of all relevant procedures required for completing the liquidation and winding-up process and that Boyaa PRC shall be transferred, at nil consideration, all remaining assets of Boyaa Shenzhen upon liquidation.
- In addition, under the Business Operating Agreement and the Equity Pledge Agreement, Mr. Zhang Wei and Mr. Dai Zhikang warrant to Boyaa PRC that appropriate arrangements have been made to protect Boyaa PRC's interests in the event of his death, bankruptcy or divorce to avoid any practical difficulties in enforcing the agreements underlying the Contractual Arrangements.
- v. The Contractual Arrangements between Boyaa PRC and Boyaa Shenzhen may subject the Group to increase income tax due to the different income tax rates applicable to Boyaa PRC and Boyaa Shenzhen, which may adversely affect the Group's results of operations.
- Boyaa PRC qualified as a "High and New Technology Enterprise" ("HANTE") under the PRC Corporate Income Tax Law in 2019 and as a result, Boyaa PRC enjoyed a preferential tax rate of 15% from 1 January 2019 to 31 December 2021. Therefore, the actual income tax rate for Boyaa PRC was 15% for the year ended 31 December 2021 (2020: 15%). Also see Note 11 to the consolidated financial statements of this annual report.
- Boyaa Shenzhen qualified as a HANTE under the PRC Corporate Income Tax Law in 2018 and as a result, Boyaa Shenzhen enjoys a preferential tax rate of 15% from 1 January 2018 to 31 December 2020. However, Boyaa Shenzhen has unsuccessfully renewed its HANTE qualification in 2021. Therefore, the applicable tax rate for Boyaa Shenzhen was 25% (2020: 15%) for the year ended 31 December 2021. No provision for income tax has been provided as Boyaa Shenzhen has no assessable profit during the year.
- vi. The Contractual Arrangements between Boyaa PRC and Boyaa Shenzhen may be subject to scrutiny by the PRC tax authorities and any finding that the Group or Boyaa Shenzhen owe additional taxes could substantially reduce the Group's consolidated net income and the value of the investment of investors.
- The Group will work closely with its tax advisors to ensure that all tax filings are made promptly and any questions raised by PRC tax authorities are addressed in a timely and satisfactory manner.

Directors' Report

Risks associated with the Contractual Arrangements

Mitigation actions taken by the Company

- vii. On 15 March 2019, Foreign Investment Law 2019 was adopted by the Second Session of the Thirteenth National People's Congress and had taken effect on 1 January 2020.

Under the Foreign Investment Law 2019 and relevant provisions of its implementation regulations, substantial uncertainties exist in connection with the legality and validity of the Contractual Arrangements to hold interests in PRC businesses that are subject to foreign ownership restrictions and the Company may have to incur compliance costs in the future.

Under the Foreign Investment Law 2019, the existing enterprises established under the former Foreign Investment Law may maintain their existing organizational structure within five years from the effective date of the Foreign Investment Law 2019. Meanwhile, foreign Investment Law 2019 does not explicitly stipulate the Contractual Arrangements as foreign investment. Therefore, the PRC legal advisor of the Company believes that the Foreign Investment Law 2019 does not mention the concepts including "actual control" and "control through contractual arrangements", nor does it specify regulations on control through contractual arrangements. In addition, the Foreign Investment Law 2019 and its implementing regulations do not specify the relevant business rules, but instead stipulate that "foreign investors invest through laws, administrative regulations or other methods prescribed by the State Council". The Foreign Investment Law 2019 and its implementing regulations do not specify on what actions should be taken by existing companies with variable interest entity structures and whether these companies are controlled by Chinese entities and/or citizens. Therefore, according to our Chinese legal adviser, our contractual arrangements will not be affected by the "Foreign Investment Law 2019" and its implementation regulations. Nevertheless, it is still possible for China's future laws, administrative regulations or State Council regulations to stipulate contractual arrangements as a way of foreign investment. Whether our contractual arrangements will be recognized as foreign investment, whether it will be considered as a violation of foreign investment access and how it will be defined are still uncertain. In any event, the Company will closely monitor any update of the Foreign Investment Law 2019 and consult its PRC legal advisor to resolve specific problems or issues that may arise from the Contractual Arrangements, so as to ensure that the Company always complies with all relevant laws and regulations in the PRC.

For details of the risks associated with the Contractual Arrangements, please refer to the section headed "Risk Factors – Risks relating to our corporate structure" in the Prospectus.

As at 31 December 2021, the Relevant Frozen Sum incurred amounted to approximately RMB678.0 million. As advised by the PRC Legal Advisers, on 29 March 2022, certain of the Employees had applied for appeal against the Retrial Judgment and therefore, the Retrial Judgment will not be enforceable and the Trial Court will not order the Relevant Frozen Sum to be paid until a final effective judgment from the PRC court has finally been handed down. The Relevant Frozen Sum will remain frozen. As at the date of this annual report, to the best knowledge of the Directors, after making all reasonable enquiries, the date of the appeal hearing has not been fixed.

Independent Auditor's Report

TO THE SHAREHOLDERS OF BOYAA INTERACTIVE INTERNATIONAL LIMITED

(Incorporated in the Cayman Islands with limited liability)

QUALIFIED OPINION

We have audited the consolidated financial statements of Boyaa Interactive International Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 99 to 170, which comprise the consolidated statement of financial position as at 31 December 2021, and consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section of our report, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“**IFRSs**”) issued by the International Accounting Standards Board (the “**IASB**”) and have been properly prepared in compliance with the disclosure requirements of Hong Kong Companies Ordinance.

BASIS FOR QUALIFIED OPINION

As disclosed in note 37, the Group's investments at fair value through profit or loss of approximately RMB243,873,000 and restricted bank deposits of approximately RMB434,143,000 as at 31 December 2021 (the “**Relevant Idle Cash Reserves**”) were frozen. Due to the Relevant Idle Cash Reserves were still frozen and the outcome has yet to be determined, we were unable to obtain sufficient appropriate audit evidence to satisfy ourselves as to the recoverability of frozen investments at fair value through profit or loss and restricted bank deposits of RMB243,873,000 and RMB434,143,000 as at 31 December 2021 respectively and RMB373,816,000 and RMB291,866,000 as at 31 December 2020 respectively. There are no other satisfactory audit procedures that we could adopt to determine whether any allowances for non-recovery of these amounts should be made in the consolidated financial statements. Any adjustments to these figures might have a consequential effect on the Group's consolidated financial performance for the years ended 31 December 2021 and 2020, the consolidated financial position of the Group as at 31 December 2021 and 2020, and the related disclosures thereof in the consolidated financial statements.

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Independent Auditor's Report

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Revenue and cost of revenue

Refer to Note 7 to the consolidated financial statements.

The Group has been engaged in development and operation of online card and board games. Revenue of the Group for the year ended 31 December 2021 of RMB366,161,000 was attributable to the online game business. The Group recognised revenue when consumable virtual items represent items that are extinguished after consumption in the form of fixed charges levied on each round of games played. The paying players will not continue to benefit from the virtual items thereafter. Revenue is recognised (as a release from contract liabilities) when the items are consumed and the related services are rendered. The Group pays commissions to third party game distribution platforms and payment vendors. The commissions are also recognised in cost of revenue when the related services are rendered to the Group. Determining when revenue and cost of revenue arising from such online game business is complex and requires significant judgement involved.

Our audit procedures included, among others:

- Discussing with the management of the Group as well as both the Group's in-house and external information technology experts to understand the revenue recognition cycle;
- Testing controls over the Group's information technology revenue and cost of revenue systems on selected games;
- Scrutinising monthly statements issued by providers of platforms and online record of providers of platforms and payment vendors regarding receipt from paying players on a sample basis; and
- Reconciling to the Group's records and conducting substantive analytical procedures on revenue and cost of revenue.

We consider that the Group's estimates of the revenue and cost of revenue recognised are supported by the available evidence.

Investments at fair value through profit or loss

Refer to Note 22 to the consolidated financial statements.

The Group measured its investments at fair value through profit or loss with the changes in fair value recognised in the consolidated profit or loss. This fair value measurement is significant to our audit because the balance of investments at fair value through profit or loss of RMB454,544,000 as at 31 December 2021 are material to the consolidated financial statements. In addition, the Group's fair value measurement involves application of judgement and is based on assumptions and estimates.

Independent Auditor's Report

KEY AUDIT MATTERS *(Continued)*

Investments at fair value through profit or loss (Continued)

Our audit procedures included, among others:

- Assessing the competence, independence and integrity of the external valuers engaged by client;
- Obtaining the external valuation reports and meeting with the external valuers to discuss and challenge the valuation process, methodologies used and market evidence to support significant judgements and assumptions applied in the valuation model;
- Checking key assumptions and input data in the valuation model to supporting evidence;
- Checking arithmetical accuracy of the valuation model; and
- Assessing the disclosure of the fair value measurement in the consolidated financial statements.

We consider that the Group's fair value measurement of the investments at fair value through profit or loss is supported by the available evidence.

OTHER INFORMATION IN THE ANNUAL REPORT

The directors are responsible for the other information. The other information comprises all the information in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As described in the Basis for Qualified Opinion section above, we were unable to obtain sufficient appropriate evidence about the frozen investments at fair value through profit or loss of and restricted bank deposits. Accordingly, we are unable to conclude whether or not the other information is materially misstated with respect to this matter.

RESPONSIBILITIES OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirement of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

Investments in associates is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of acquisition over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Associates (Continued)

The Group's share of an associate's post-acquisition profits or losses is recognised in consolidated profit or loss, and its share of the post-acquisition movements in reserves is recognised in the consolidated reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of an associate that results in a loss of significant influence represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that associate and (ii) the Group's share of the net assets of that associate plus any remaining goodwill relating to that associate and any related accumulated foreign currency translation reserve. If an investment in an associate becomes an investment in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

Unrealised profits on transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in Renminbi ("**RMB**"), which is the Company's presentation currency and the functional currency of the principal operating subsidiaries of the Group. The functional currency of the Company is United States dollars ("**USD**"). The directors consider that choosing RMB as the presentation currency best suits the needs of the shareholders and investors as the game development and operation of the Group have been within the PRC.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Foreign currency translation (Continued)

(b) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

(c) Translation on consolidation

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- (i) Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- (ii) Income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- (iii) All resulting exchange differences are recognised in the exchange reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities and of borrowings are recognised in the exchange reserve. When a foreign operation is sold, such exchange differences are recognised in consolidated profit or loss as part of the gain or loss on disposal.

Property, plant and equipment

Land and buildings mainly comprise offices. Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal useful lives are as follows:

Land and buildings	20 years
Furniture and equipment	3 – 5 years
Motor vehicles	4 years
Leasehold improvements	Over the shorter of 3 years or remaining terms of the lease

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

Leases

Leases are recognised as right-of-use assets and corresponding lease liabilities when the leased assets are available for use by the Group. Right-of-use assets are stated at cost less accumulated depreciation and impairment losses. Depreciation of right-of-use assets is calculated at rates to write off their cost over the shorter of the asset's useful life and the lease term on a straight-line basis. The principal useful lives are as follows:

Land and buildings	5 years
Equipments	3 years

Right-of-use assets are measured at cost comprising the amount of the initial measurement of the lease liabilities, lease payments prepaid, initial direct costs and the restoration costs. Lease liabilities include the net present value of the lease payments discounted using the interest rate implicit in the lease if that rate can be determined, or otherwise the Group's incremental borrowing rate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the lease liability.

Payments associated with short-term leases and leases of low-value assets are recognised as expenses in profit or loss on a straight-line basis over the lease terms. Short-term leases are leases with an initial lease term of 12 months or less. Low-value assets are assets of value below US\$5,000.

Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

Computer software

Computer software is initially recognised and measured at cost less amortisation. Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software, and are amortised over their estimated useful lives of 5 years.

Contractual customer relationships

Contractual customer relationships acquired in a business combination are recognised at fair value at the acquisition date. The contractual customer relationships have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method over the expected life of the customer relationship of 5 years.

Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an asset is under a contract whose terms require delivery of the asset within the timeframe established by the market concerned, and are initially recognised at fair value, plus directly attributable transaction costs except in the case of investments at fair value through profit or loss. Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets of the Group are classified as under the following categories:

- Financial assets at amortised cost;
- Equity investments at fair value through other comprehensive income; and
- Investments at fair value through profit or loss.

(a) *Financial assets at amortised cost*

Financial assets (including trade and other receivables) are classified under this category if they satisfy both of the following conditions:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

They are subsequently measured at amortised cost using the effective interest method less loss allowance for expected credit losses.

(b) *Equity investments at fair value through other comprehensive income*

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments that are not held for trading as at fair value through other comprehensive income.

Equity investments at fair value through other comprehensive income are subsequently measured at fair value with gains and losses arising from changes in fair values recognised in other comprehensive income and accumulated in the equity investment revaluation reserve. On derecognition of an investment, the cumulative gains or losses previously accumulated in the equity investment revaluation reserve are not reclassified to profit or loss.

Dividends on these investments are recognised in profit or loss, unless the dividends clearly represent a recovery of part of the cost of the investment.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial assets (Continued)

(c) Investments at fair value through profit or loss

Financial assets are classified under this category if they do not meet the conditions to be measured at amortised cost and the conditions of debt investments at fair value through other comprehensive income unless the Group designates an equity investment that is not held for trading as at fair value through other comprehensive income on initial recognition.

Investments at fair value through profit or loss are subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss. The fair value gains or losses recognised in profit or loss are net of any interest income and dividend income. Interest income and dividend income are recognised in profit or loss.

Loss allowances for expected credit losses

The Group recognises loss allowances for expected credit losses on financial assets at amortised cost. Expected credit losses are the weighted average of credit losses with the respective risks of a default occurring as the weights.

At the end of each reporting period, the Group measures the loss allowance for a financial instrument at an amount equal to the expected credit losses that result from all possible default events over the expected life of that financial instrument ("**lifetime expected credit losses**") for trade receivables, or if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the end of the reporting period, the credit risk on a financial instrument (other than trade receivables) has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to the portion of lifetime expected credit losses that represents the expected credit losses that result from default events on that financial instrument that are possible within 12 months after the reporting period.

The amount of expected credit losses or reversal to adjust the loss allowance at the end of the reporting period to the required amount is recognised in profit or loss as an impairment gain or loss.

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value. Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under IFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer with reference to the customary business practices and excludes amounts collected on behalf of third parties. For a contract where the period between the payment by the customer and the transfer of the promised product or service exceeds one year, the consideration is adjusted for the effect of a significant financing component.

The Group recognises revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. Depending on the terms of a contract and the laws that apply to that contract, a performance obligation can be satisfied over time or at a point in time. A performance obligation is satisfied over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If a performance obligation is satisfied over time, revenue is recognised by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the product or service.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Other revenue

Interest income is recognised using the effective interest method.

Dividend income is recognised when the shareholders' rights to receive payment are established.

Employee benefits

(a) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(b) Pension obligations

The Group companies incorporated in the PRC contribute based on certain percentage of the salaries of the employees to a defined contribution retirement benefit plan organised by relevant government authorities in the PRC on a monthly basis. The government authorities undertake to assume the retirement benefit obligations payable to all existing and future retired employees under these plans and the Group has no further obligation for post-retirement benefits beyond the contributions made. Contributions to these plans are expensed as incurred. Assets of the plans are held and managed by government authorities and are separate from those of the Group.

(c) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Share-based payments

The Group operates a number of equity-settled share-based compensation plan under which share awards are granted to certain directors and employees as part of their remuneration packages.

Equity-settled share-based payments to directors and employees are measured at the fair value (excluding the effect of non market-based vesting conditions) of the equity instruments at the date of grant. The fair value of the employee services received in exchange for the grant of the share-based awards is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the share-based awards granted:

- including any market performance conditions;
- excluding the impact of any service and non-market performance vesting conditions; and
- including the impact of any non-vesting conditions.

At the end of each reporting period, the Group revises its estimates of the numbers of share options and restricted share units (“RSU”) that are expected to vest based on the non-marketing performance and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

In addition, in some circumstances employees may provide services in advance of the grant date and therefore the grant date fair value is estimated for the purposes of recognising the expense during the period between service commencement period and grant date.

Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Segment reporting

Operating segments and the amounts of each segment item reported in the financial statements are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources and assessing the performance of the Group's various lines of business.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

Related parties

A related party is a person or entity that is related to the Group.

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Company or of a parent of the Company.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to a parent of the Company.

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets except deferred tax assets, investments and receivables to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

4. CRITICAL JUDGEMENTS AND KEY ESTIMATES

Critical judgements in applying accounting policies

In the process of applying the accounting policies, the Directors have made the following judgements that have the most significant effect on the amounts recognised in the consolidated financial statements.

(a) Contractual Arrangements

The operations of the Group were initially conducted through Shenzhen Dong Fang Bo Ya Technology Co., Limited, a limited liability company established in the PRC by two shareholders of the Company, namely Mr. Zhang Wei and Mr. Dai Zhikang, on 13 February 2004.

Pursuant to applicable PRC laws and regulations, foreign investors are prohibited from holding equity interest in an entity conducting online games business and are restricted to conduct value-added telecommunications services. In order to make investments into the business of the Group, the Company established a subsidiary, Boyaa On-line Game Development (Shenzhen) Co., Limited, which is a wholly foreign owned enterprise incorporated in the PRC on 29 November 2010.

Boyaa On-line Game Development (Shenzhen) Co., Limited, Shenzhen Dong Fang Bo Ya Technology Co., Limited and its registered owners entered into a series of contractual arrangements (the “**Contractual Arrangements**”) entered into on 15 May 2013, which enable Boyaa On-line Game Development (Shenzhen) Co., Limited and the Group to:

- exercise effective financial and operational control over Shenzhen Dong Fang Bo Ya Technology Co., Limited;
- exercise all owners’ voting rights of Shenzhen Dong Fang Bo Ya Technology Co., Limited;
- receive substantially all of the economic interest returns generated by Shenzhen Dong Fang Bo Ya Technology Co., Limited in consideration for the business support, technical and consulting services provided by Boyaa On-line Game Development (Shenzhen) Co., Limited;
- obtain an irrevocable and exclusive right to purchase all or part of equity interests in Shenzhen Dong Fang Bo Ya Technology Co., Limited from the respective owners at a minimum purchase price permitted under PRC laws and regulations, and all or part of the assets of Shenzhen Dong Fang Bo Ya Technology Co., Limited at the net book value of such assets or such minimum purchase price permitted under PRC laws and regulations. Boyaa On-line Game Development (Shenzhen) Co., Limited may exercise such options at any time until it has acquired all equity interests and/or all assets of Shenzhen Dong Fang Bo Ya Technology Co., Limited; and
- obtain a pledge over the entire equity interest of Shenzhen Dong Fang Bo Ya Technology Co., Limited from their respective owners as collateral security for all of Shenzhen Dong Fang Bo Ya Technology Co., Limited’s payments due to Boyaa On-line Game Development (Shenzhen) Co., Limited and to secure performance of Shenzhen Dong Fang Bo Ya Technology Co., Limited’s obligations under the Contractual Arrangements.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

4. CRITICAL JUDGEMENTS AND KEY ESTIMATES *(Continued)*

Critical judgements in applying accounting policies (Continued)

(a) Contractual Arrangements (Continued)

The Group do not hold any equity interests in Shenzhen Dong Fang Bo Ya Technology Co., Limited. Nevertheless, under the Contractual Agreements entered into between Boyaa On-line Game Development (Shenzhen) Co., Limited, Shenzhen Dong Fang Bo Ya Technology Co., Limited and its owners, the management determines that the Group has the power to govern the financial and operating policies of Shenzhen Dong Fang Bo Ya Technology Co., Limited so as to obtain benefits from its activities. As such, Shenzhen Dong Fang Bo Ya Technology Co., Limited is accounted for as subsidiary of the Group for accounting purposes.

Nevertheless, the Contractual Arrangements may not be as effective as direct legal ownership in providing the Group with direct control over Shenzhen Dong Fang Bo Ya Technology Co., Limited and uncertainties presented by the PRC legal system could impede the Group's beneficiary rights of the results, assets and liabilities of Shenzhen Dong Fang Bo Ya Technology Co., Limited. The directors of the Company, based on the advice of its legal advisor, consider that the Contractual Arrangements amongst Boyaa On-line Game Development (Shenzhen) Co., Limited, Shenzhen Dong Fang Bo Ya Technology Co., Limited and its equity holders are in compliance with the relevant PRC laws and regulations and are legally binding and enforceable.

(b) Non-consolidation of entities with 99% equity interests

The directors have determined that the Group does not have control over a limited partnership namely Jiaying Boyaa ChunLei Equity Investments Limited Partnership Enterprise ("**Jiaying Boyaa**"). Jiaying Boyaa is not a controlled entity because the Group does not have power over the entity to affect its returns, despite the Group having contributed 99% of total contributions into the entity. The Group as limited partner is purely an investor role and the decisions relating to the daily operations and investment strategy and activities of Jiaying Boyaa are made solely by, and the decision making power is fully vested in, the general partner, an independent third party. The investment has a fair value of RMB17,400,000 (2020: RMB113,800,000). Details please refer to note 22(ii) to the consolidated financial statements.

4. CRITICAL JUDGEMENTS AND KEY ESTIMATES *(Continued)*

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Revenue recognition

The Group recognised revenue when consumable virtual items represent items that are extinguished after consumption in the form of fixed charges levied on each round of games played. The paying players will not continue to benefit from the virtual items thereafter. Revenue is recognised (as a release from contract liabilities) when the items are consumed and the related services are rendered. Determining when revenue arising from such online game business is recognised is complex and requires significant judgement. Management has arrived at this judgement after taking into account the nature and characteristics of virtual items, and the ways of the players within the games to benefit from these virtual items. Future patterns of virtual items beneficial to the paying players may differ from the historical patterns and therefore the time of revenue recognition may change in the future.

(b) Income taxes

The Group is subject to income taxes in several jurisdictions. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(c) Fair value of investments

In the absence of quoted market prices in an active market, the Directors estimate the fair value of the Group's non-quoted investments in asset management plans, equity investment partnerships and wealth management products, details of which are set out in note 6 to the consolidated financial statements, by considering information from a variety of sources, including the latest published financial information, the historical data on market volatility as well as the price and industry and sector performance of the Group's non-quoted investments in asset management plans, equity investment partnerships and wealth management products.

5. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, price risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) *Foreign currency risk*

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are denominated in either RMB or USD. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

(b) *Price risk*

The Group's equity investments at fair value through other comprehensive income are measured at fair value at the end of each reporting period. Therefore, the Group is exposed to equity security price risk. The Directors manage this exposure by maintaining a portfolio of investments with difference risk profiles.

At 31 December 2021, if the fair value of equity investments at fair value through other comprehensive income increase/decrease by 5%, other comprehensive income for the year would have been RMB1,382,000 (2020: RMB3,362,000) higher/lower.

(c) *Credit risk*

The carrying amount of the bank and cash balances, term deposits, restricted bank deposits, trade and other receivables, and investments in wealth management products included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

The credit risk on bank and cash balances, term deposits, restricted bank deposits and investments in wealth management products are limited because the counterparties are reputable financial institutions in the PRC and reputable international financial institutions outside of the PRC. There has been no recent history of default in relation to these financial institutions.

Notes to the Consolidated Financial Statements

5. FINANCIAL RISK MANAGEMENT *(Continued)*

(c) Credit risk (Continued)

Trade receivables are due from game distribution platforms and third-party payment vendors in cooperation with the Group. If the strategic relationship with game distribution platforms and third-party payment vendors is terminated or scaled-back; or if the game distribution platforms and third-party payment vendors alter the co-operative arrangements; or if they experience financial difficulties in paying the Group, the Group's game publishing receivables might be adversely affected in terms of recoverability. To manage this risk, the Group maintains frequent communications with the game distribution platforms and third-party payment vendors to ensure the effective credit control. In view of the history of cooperation with the game distribution platforms and third-party payment vendors and the sound collection history of receivables due from them, the directors of the Company believe that the credit risk inherent in the Group's outstanding trade receivable balances due from the game distribution platforms and third-party payment vendors is low.

For other receivables, the majority of the balances were expected to be settled within 12 months after the end of the reporting period based on the historical data and forward-looking information. The management of the Group did not consider there have been an significant increase in credit risk at the end of the reporting period since the initial recognition. As at 31 December 2021, the management of the Group considered the expected credit loss for these other receivables was insignificant.

The Group considers whether there has been a significant increase in credit risk of financial assets on an ongoing basis throughout each reporting period by comparing the risk of a default occurring as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. Especially the following information is used:

- internal credit rating;
- external credit rating (if available);
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations;
- actual or expected significant changes in the operating results of the borrower;
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers; and
- employment relationship with the employee borrower.

5. FINANCIAL RISK MANAGEMENT (Continued)

(c) Credit risk (Continued)

A significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment. A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group normally categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 360 days past due. Where loans or receivables have been written off, the Group, if practicable and economical, continues to engage in enforcement activity to attempt to recover the receivable due.

The Group uses two categories for non-trade receivables which reflect their credit risk and how the loan loss provision is determined for each of the categories. In calculating the expected credit loss rates, the Group considers historical loss rates for each category and adjusts for forward looking data.

Category	Definition	Loss provision
Performing	Low risk of default and strong capacity to pay	12 month expected losses
Non-performing	Significant increase in credit risk	Lifetime expected losses

All of these loans are considered to have low risk and under the “Performing” category because they have a low risk of default and have strong ability to meet their obligations.

(d) Liquidity risk

The Group’s policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity analysis, based on undiscounted cash flows, of the Group’s financial liabilities is as follows:

	Less than 1 year RMB’000	Between 1 and 2 years RMB’000	Between 2 and 5 years RMB’000
At 31 December 2021			
Trade and other payables	32,392	–	–

5. FINANCIAL RISK MANAGEMENT *(Continued)*

(e) *Interest rate risk*

As the Group has no significant interest-bearing assets and liabilities, the Group's operating cash flows are substantially independent of changes in market interest rates.

The Group's bank deposits bear interests at fixed interest rates and therefore are subject to fair value interest rate risks.

6. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

Hence it is determined that the Group has only one operating segment. Accordingly no segment information is presented.

7. REVENUE AND SEGMENT INFORMATION *(Continued)*

Sales of game tokens or other virtual items

The Group's revenue is primarily derived from the sales of in-game virtual tokens ("**Game Tokens**") and other virtual items in its game development operations ("**Game Development**") through cooperation with various third-party game distribution platforms and payment vendors. These game distribution platforms include major social networking websites (such as Facebook), online application stores (such as Apple Inc.'s App Store and Google Play installed in mobile telecommunications devices), web-based and mobile game portals, telecommunication operators and pre-paid game card distributors in certain countries and regions (collectively referred to as "**Platforms**").

In cooperation with Platforms, the Group is responsible for hosting the games, providing on-going updates of new contents, technical support for the operations of the games, as well as preventing, detecting and resolving in-game cheating and hacking activities. Platforms are responsible for distribution, marketing, platform maintenance, payer authentication and payment collections related to the games.

The Group's games are free to play and players can purchase Game Tokens or other virtual items for better in-game experience. Players purchase the Group's Game Tokens or other virtual items ("**Paying Players**") through Platforms' own charging systems or their accounts maintained with third party payment vendors, or charging from the prepaid game cards they purchased. Generally, the payments received for purchasing the Group's Game Tokens or other virtual items are non-refundable and the related contracts are non-cancellable. Platforms and third party payment vendors collect the payment from the Paying Players and remit the cash net of commission charges which are pre-determined to the Group according to the relevant terms of the agreements entered into between the Group and Platforms or third party payment vendors.

Upon the sales of Game Tokens or other virtual items, the Group typically has an implied obligation to provide the services which enable the Game Tokens or other virtual items to be displayed or used in the games. As a result, the proceeds received from sales of Game Tokens or other virtual items are initially recorded as service fees prepaid by game players and included in contract liabilities, while the proceeds received from sales of prepaid game cards are initially recorded as advance received from sales of prepaid game cards and included in contract liabilities. This advance is then transferred to service fees prepaid by game players when the game cards are activated by the players, i.e. the first time the players use the prepaid game cards to credit their game accounts. The attributable portion of the service fees prepaid by game players relating to values of the Game Tokens consumed and other virtual items purchased are immediately recognised as revenue only when the services are rendered to the respective Paying Players.

In the current and comparative period, the Group render services to Paying Players to enhance their in-game experience through their consumption of virtual items. These virtual items are extinguished after consumption in the form of fixed charges levied on each round of games played. The Paying Players will not continue to benefit from the virtual items thereafter and the Group will not have further obligations to the Paying Players after the virtual items consumed. Revenue is immediately recognised (as a release from contract liabilities) when the items are consumed and the related services are rendered, which was taken to be the point in time.

7. REVENUE AND SEGMENT INFORMATION (Continued)

Principal and agent consideration

The Group has evaluated the roles and responsibilities of the Group and Platforms or third party payment vendors in the delivery of game experience to the Paying Players in order to determine whether or not the Group acts as the principal or as an agent in the arrangement with each party respectively. The determination of whether to record the revenues on gross basis or net basis is depended on an assessment of various factors, including but not limited to whether the Group (i) is the primary obligor in the arrangement; (ii) has general inventory risk; (iii) changes the product or performs part of the services; (iv) has latitude in establishing the selling price; and (v) has involvement in the determination of product and service specifications.

Under the arrangements with Platforms or third party payment vendors, the Group takes primary responsibilities of game operation, including determining distribution and payment channels, providing customer services, hosting and maintaining game servers, controlling game and services specifications and pricing. After considering these factors, the Group concluded itself as a principal to deliver in-game experience to Paying Players in these arrangements and accordingly, the Group records revenue on a gross basis, and commission charges by Platforms or third party payment vendors are recorded as cost of revenue.

No revenue is derived from any individual game player which amounted for over 10% of the Group's total revenue (2020: nil).

The Group's non-current assets other than deferred tax assets, investments at fair value through profit or loss, restricted bank deposit and equity investments at fair value through other comprehensive income were located as follows:

37. MATERIAL EVENTS

In March 2019, the Company has come to the attention that it was not able to continue to use the idle cash reserves in its individual bank accounts (the “**Relevant Idle Cash Reserves**”) for fixed-term deposits or wealth management (the “**Incident**”). At 31 December 2021, the Group’s investments at fair value through profit or loss of approximately RMB243,873,000 and restricted bank deposits of approximately RMB434,143,000 were frozen.

At the relevant time, the Company considered that the Incident may be implicated as a result of the Case (as defined below) involving individual Employees (as defined below), as such, the Company has engaged its PRC legal advisers (the “**PRC Legal Advisers**”) to advise on this matter. Upon engagement of the PRC Legal Advisers, the PRC Legal Advisers have submitted applications to the relevant PRC court and procuratorate on behalf of the Company in relation to the Incident, including an application to utilize the Relevant Idle Cash Reserves.

Upon advice of the PRC Legal Advisers, the Company filed another application (the “**Application**”) to the relevant PRC court on 21 August 2019 seeking to utilize the Relevant Idle Cash Reserves for wealth management. On 27 August 2019, the Company received a reply (the “**Reply**”) from the relevant PRC court that the Relevant Idle Cash Reserves were frozen due to a prosecution (the “**Case**”) made by the relevant PRC judicial authority against its individual current or former employees (the “**Employees**”) for their alleged illegal activities conducted through one of the Company’s onshore online gaming platforms (the “**Alleged Crime**”). Therefore, the Application was rejected. As advised by the PRC Legal Advisers, if the relevant PRC judicial authority finds that the Employees are guilty of the Alleged Crime and some or all of the Relevant Idle Cash Reserves contain income generated as a result of such conduct, such income may be confiscated.

On 27 December 2019, the Intermediate People’s Court of Chengde City, Hebei Province (the “**Trial Court**”) delivered the judgment in relation to the Case (the “**Judgment**”). The Trial Court held that the Employees are guilty of the Alleged Crime and ordered an amount of approximately RMB943 million to be paid to the state treasury (the “**Judgment Amount**”).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2021

37. MATERIAL EVENTS (Continued)

The Company is not a party to the Case. As at the date of this report, none of the Company, its directors and its senior management had been subject to any prosecution or investigation by the relevant PRC judicial authorities in relation to the Alleged Crime. In addition, the Company had not received any notification from any relevant PRC judicial authority in relation to the Judgment Amount and so far as the Company is aware, the other bank accounts had not been frozen by the relevant PRC judicial authorities.

The Company is discussing with its PRC Legal Advisers as to the next step forward in relation to the Judgment, including the possibility to take appropriate legal actions as to the Judgment Amount to protect the interests of the Company and its shareholders. As advised by the PRC Legal Advisers, as of the date of this report, one of the Employees had applied for appeal against the Judgment and the appeal hearing against the Judgment (the “**Appeal Hearing**”) was heard on 10 November 2020. The Company is informed, on 3 September 2021, that the PRC court of second instance (the “**Appeal Court**”) had made a decision on the Appeal Hearing to quash the Judgment and remanded the case to the Trial Court for a retrial (the “**Retrial**”) since it is of the view that certain facts under the Judgment is unclear. As advised by the PRC Legal Advisers, the Retrial was heard on 1 December 2021 and 2 December 2021. The Company was informed, on 23 March 2022, the Intermediate People’s Court of Chengde City, Hebei Province delivered the judgement of the Retrial (the “**Retrial Judgement**”). The Trial court had upheld that the Employees are guilty of the Alleged Crime. However, the Trial court had held that the amount of RMB291,696,677.62 and wealth management products in the amount of RMB350,000,000 and the relevant interests which had been frozen shall be paid to the state treasury (the “**Relevant Frozen Sum**”) which superseded the amount of RMB942,654,382.75 as original ordered by the Trial court to be paid to the state treasury. As at 31 December 2021, the Relevant Frozen Sum incurred amounted to approximately RMB678.0 million. As advised by the PRC Legal Advisers, if the employees appeal against the Retrial Judgment, the Retrial Judgment will not be enforceable and the Trial court will not order the Relevant Frozen Sum to be paid until a judgement from the court has finally been handed down.

In light of the fact that (i) the Company, its directors and senior management had not been subject to any prosecution by the relevant PRC judicial authority in relation to the Alleged Crime as at the date of this report; (ii) the Relevant Frozen Sum only form part of the idle cash reserve of the Company which is used for the purpose of Idle Fund Management, and is the Company’s general practice; (iii) the Company has sufficient cash reserves available in the other bank accounts for its day-to-day operations; (iv) the Company does not have any loan borrowing as at the date of this report; (v) as at 31 December 2021, the Company recorded current assets and the Relevant Frozen Sum in the sum of approximately RMB2,098.0 million, the Relevant Frozen Sum accounted for approximately 32.3% of the Company’s relevant funds, the Board is of the view that the Retrial Judgement would not have any material adverse impact on the business, operation and financial conditions of the Group.
